CAREER STATEMENT

"I feel that my greatest strengths are firstly my strong commitment to providing a professional service to all colleagues with whom I work. Secondly my skill at developing and maintaining a close working relationship with every company client, something which in turn helps me to gain an in-depth understanding of their individual needs. Thirdly my real passion for Software Development as a whole, an obsession which allows me to spot trends and develop best practise processes."

-Krishna Kangane

PERSONAL SUMMARY

Passionate automation and web developer with 3.9 years of experience, seeking to streamline the WFM team tasks for Accenture Ltd, Airoli. The **Email communication is reduced by 15 percent** and the time punctuality is **improved by 40 percent** in 11 months by implementing **Life Project website tool**. This tool helps Examiner to check their data, for Leads to handle team leave, coaching and all other activity on one platform and for Manager live report is always visible on their screen. This project is Skilled in Continuous Improvement, Agile, and always helps in Business Process Improvement.

Right now, I am looking for a suitable position with a company where outstanding performance is recognized and where I can work on a variety of high-profile projects.

Simply Audit (Production Audit Project), Wipro Ltd
LEAD DEVELOPER

Jun 2018- Nov 2018

Created the web tool for the audit team of one core process of Healthcare department of Wipro Ltd. By this tool the audit process of that queue is streamlined and now the Managers can track all auditors with the time on Floor and production per day with report pullout facility. The communication between Auditors and Case Processor is now track by manager for any error. The collected data is using for implementing new procedure to reduce number of errors in process and improve the data quality.

- Developing and maintaining the all functionality of websites.
- Participating in discussions with Manager and users to clarify what they want.
- Implementing new idea in the tool to make usage simple.
- Creating logos, banners and buttons for websites.
- Writing cross-browser compliant XHTML, CSS and JavaScript.
- Simultaneously managing production database and reporting tools
- Updating tools as per process request and new queue integration.

Online Assessment Tool (Process Knowledge Test Project), Wipro Ltd.
LEAD DEVELOPER

Jan 2018- Jun 2018

Created the web tool for the work queue in Wipro Ltd. By using this tool now managers can conduct any test related to the process knowledge or the current error trend to overcome with errors. This tool is used for not only the process test but also in Internal Job Posting tests. The benefit of this tool is that Employees can see their result quickly after submitting their test. The exam record is stored in database using encryption, so no alteration is possible. And the employee can check and review his answer for better performance in next exam. The manager can pull out the exam result and answer dump on one click. The user database is attached with the Audit Tool so no need to create new login for this tool.
